Stretch Your **Physical**

Medical

BlueCross BlueShield (BCBS)

Choose from three BCBS plans: HDHP A, HDHP B or PPO Plan

How the plans are the same:

- You must meet the annual **deductible** before the health plan begins to cover non-preventive care expenses. You are responsible for 100% of non-preventive care expenses until you meet your deductible.
- After you reach your deductible, then **coinsurance** begins. Coinsurance is your share of the costs of a covered health care service, calculated as a percentage of the allowed amount for the service.
- You have a cap on what you pay for covered expenses in a plan year, called your **out-of-pocket limit**. For covered expenses, you pay coinsurance up to the out-of-pocket limit. Once you reach the out-of-pocket limit, the plan pays 100% of covered expenses for the rest of the plan year. The amount you pay toward your annual deductible and your coinsurance count toward your out-of-pocket limit.
- **Preventive care** is covered at 100% when you use a network provider.

The **My Health Planner**™ app is free for eligible members! It helps you keep track of what you need to do between doctor visits and stay in touch with your care team.

Prior Authorizations

The company medical plan requires prior authorization, also called preauthorization or precertification, for certain medical tests and treatments. This is an extra step to ensure you receive the appropriate type of care for your condition. If your doctor does not receive authorization before they perform the service, it may not be covered by insurance.

What types of services require prior authorization?

- Inpatient admissions
- Home health services
- Skilled nursing services

What should you do?

Most providers will be knowledgeable about services that require prior authorization. You can ask your doctor to visit the provider area of My Health Toolkit and sign in to My Insurance Manager to request authorization. After the request is submitted and a decision has been made, you can easily check the decision:

- Log in to MyHealthToolkitKC.com, select the Claims & Authorizations tab, then Prior Authorization.
- Or call the number on the back of your membership card to speak to a customer service advocate.

Support for Your Unique Health Journey

The medical plan includes one-on-one support from a health care professional at no additional cost.

What is a health coach?

The BCBS team of nationally accredited health coaches includes registered nurses, health educators, respiratory therapists, certified diabetes educators, licensed behavioral health specialists, and other health and well-being professionals. Wherever you are in your journey, BCBS can connect you to the right coach. They will work with you to make positive, meaningful changes at your pace. To connect with a coach, enroll at MyHealthToolkitKC.com or call the number on the back of your membership card.

Retirement Plan | Schwab

The Construction 401(k) Plan is a convenient, tax-deferred way to save for your retirement.

The Construction 401(k) Plan Benefits Include:

- Pre-tax and after-tax Roth 401(k) savings options
- Company matching contributions (made quarterly)
- A broad selection of quality investment options
- Automatic payroll deductions
- Convenient account access options

In-Plan Roth Rollover

Convert all or part of your eligible balances to Roth savings while leaving the funds in your plan account.

How the Plan Works

You are immediately eligible to participate in the plan on your date of hire unless you are:

- A leased professional
- Represented by a collective bargaining agreement
- A non-resident alien with no U.S. source income
- An independent contractor or contract worker
- An intern
- Not employed in a craft job classification

How Matching Contributions Work

You can contribute 1% to 60% of your eligible compensation, and bonus payments, up to the annual IRS limits, via separate base and bonus deferral elections. You may choose to make pretax or Roth contributions or a combination of the two. The company will match your retirement plan contributions 50 cents on the dollar (or 50%) on the first 6% of your own contributions.

If you turn age 50 during the calendar year (or are already age 50 or older), you can contribute an additional amount to the Plan up to your catch-up contribution limit. This “catch-up” contribution cannot exceed the IRS limit. Note that the company does not match catch-up contributions.

What This Means for You

When you contribute at least 6% of your pay to your retirement plan account, you will receive the maximum 3% company match. That means your total savings will equal 9% of earnings annually.

Vesting

Your contributions are always 100% vested, meaning you own them immediately. You are fully vested in company matching contributions as shown below.

Years of Service	The Company's Matching Contributions, %
Less than 2	0
2	0
3	100

Investment Options

The Plan lets you decide how best to save for retirement by giving you the option to choose from a variety of investment funds. As always, your investment portfolio should reflect your age, risk tolerance and overall savings goals. As you consider your investment options, think about what level of involvement you'd like to have in managing your account.

A “Low Maintenance” Approach — Target Retirement Funds

- Offers a diversified portfolio in a single fund based on your target retirement date
- Is automatically managed to invest more conservatively as you get closer to retirement age

A “Hands-On” Approach — Build Your Own Portfolio

- Offers a choice from individual core funds selected and monitored by the company to create your own unique portfolio
- OR
- Provides even more investment options; contribute up to 95% of your contribution to a self-directed Personal Choice Retirement Account (PCRA) through Schwab

Retirement Planning Support

Retirement plan advice powered by Morningstar® Retirement ManagerSM is available at no additional cost. This tool can help you:

- Create a personalized retirement strategy

Who's Eligible for Coverage

Under the company's benefits program, eligible dependents include:

- Your legal spouse
- Your same or opposite sex domestic partner (DP)
- Your children, or children of your spouse or DP, who are under age 26
- Your unmarried children who are over age 26, permanently and totally disabled, do not provide more than 50% of their own support and live with you for more than half the year

Children include biological children; stepchildren; adopted children; children placed for adoption; children whom you, your spouse or DP are legally obligated to support; and children for whom you or your spouse or DP are the legal guardian.

If you and your spouse, DP or dependent child(ren) work at the company, you cannot be covered as both a professional and a dependent under any of the company's benefits plans. More details about eligibility can be found in the benefit plan documents by contacting the Bird Electric HR Support Center at **+1 913-359-1619** or HRBIRD@hrsupport.bv.com.

Covering a DP and/or DP's Child(ren)

If you enroll in DP coverage, you will need to submit a DP Affidavit. During enrollment, you must identify your eligible DP and/or your DP's dependent child(ren) who will be covered under your health plans. Benefits for a DP, or child(ren) of a DP, are purchased after taxes. The total value of your DP's and DP's child(ren)'s benefits is considered imputed (taxable) income.

Dependent Verification

After you enroll, you must show proof of eligibility (such as a marriage certificate, birth certificate or DP registration) to

HMS, a Gainwell Technologies Company, to provide coverage for your newly enrolled dependents in the medical, dental and/or vision plans. HMS will contact you with details about how to complete the verification process.

If you fail to complete the dependent verification process with HMS, your unverified dependents will not be eligible for coverage under the medical, dental and vision plans, and their coverage under these plans will be terminated.

When You Can Make Changes

Consider your benefit elections carefully. You will not have an opportunity to change your elections until the next Open Enrollment period – unless you have a qualifying event or a change in family status.

- Marriage, divorce or legal separation
- Birth or adoption of a child
- Change in work status for you or your spouse or DP
- Death of your spouse or DP
- Loss of coverage in another group health plan

If you have a change in family status, you must notify your HR Representative or the Bird Electric HR Support Center within 30 days from the date of the event to make changes to your benefits plan(s).
